

InBio-260

InBio260 is a project oriented high-end product line with unique features such as embedded fingerprint verification and advanced access control functions, which can be managed by TCP/IP communication thru LAN or WAN networks.

The InBio260 are the perfect match for ZK Bio Security web based software platform to provide a full featured biometric security solution.

In combination with the FR1200 RS485 reader, the panels can authenticate users under multiple verification modes such as fingerprint, card and password for a higher security level.
